

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	01 July 2026
Team ID	SWTID-2026-9246
Project Name	AI ENABLED STUDENT ADMISSION SYSTEM
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization:

Brainstorming for the AI-Enabled Student Admission & Support Management System using Salesforce Agentforce focused on identifying the major challenges faced by educational institutions during the student admission process. The team discussed issues such as manual application processing, scattered student records, delayed approval workflows, lack of centralized communication, and limited use of intelligent decision-making tools. Various solution ideas were explored, including automation using Salesforce Flows, AI-powered admission assistance through Agentforce, role-based access control, real-time reporting, and automated notifications. The brainstorming sessions helped finalize the project's objectives, define its scope, prioritize essential features, and design an efficient, scalable, and AI-driven admission management solution that improves operational efficiency and enhances the overall student admission experience.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 90 minutes to prepare
🕒 1 hour to collaborate
👤 2-8 people recommended

Project:
AI-Enabled Student Admission & Support Management System using Salesforce Agentforce

➔

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

 **Team gathering**

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Participants: Admission Counselors, Academic Managers, Administrators, IT/Admin Team, Reporting Analyst

Purpose: Brainstorm problems and prioritize the most critical one for our admissions system.

 **Set the goal**

Think about the problem you'll be focusing on solving in the brainstorming session.

Goal: Identify and select the most critical problem faced in current student admission and support process.

 **Learn how to use the facilitation tools**

Use the Facilitation Guide/preview to run a happy and productive session.

[Open guide](#) ➔

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

SELECTED PROBLEM STATEMENT

How might we streamline the student admission and support process using Salesforce and AI so that institutes can reduce manual work, improve decision-making, and enhance student experience?

**Key rules of brainstorming**

To run a smooth and productive session

 Stay in hope.

 Encourage wild ideas.

 Defer judgment.

 Listen to others.

 Go for volume.

 If possible, be visual.

Outcome of Session

- Discussed current challenges in student admission and support.
- Generated multiple ideas to solve the problems.
- Selected the most impactful problem statement using prioritization.
- Next step: Analyze the problem and define system requirements.

Step-2: Brainstorm, Idea Listing and Grouping

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

Gayatri Akhila (Team Member 1)

Student Registration Portal	AI Chatbot for Admission Queries	Online Document Upload
Digital Application Forms	Profile Verification	Student Login Dashboard
Mobile-Friendly Portal	Secure Student Authentication	Automated Notifications

Team Member 2

Course Management Module	Skill Availability Tracking	Fee Structure Management
Scholarship Eligibility Check	Course Recommendations using AI	Admission Timeline Tracking
Program Comparison	Academic Calendar Integration	Course Capacity Alerts

Team Member 3

AI Admission Eligibility Prediction	AI Risk Analysis for Applications	AI Priority Score
Smart Document Validation	AI-Based Student Recommendations	Personalized Counseling Suggestions
AI Summary Generation	Fraud Detection	Admission Decision Support

Team Member 4

Automated Approval Workflow	Email Notifications	Interview Scheduling
Enrollment Confirmation	Payment Status Tracking	Reminder Notifications
Flow Automation	Task Assignment	Status Updates

Team Member 5

Reports and Dashboards	Student Analytics	Enrollment Trends
Admission Performance Metrics	Counselor Performance Dashboard	Real-Time Monitoring
Data Security and Access Control	Feedback Collection	Continuous System Improvement

3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

Cluster 1 - Student Admission

Student Registration	Document Upload	Application Forms
Authentication	Admission Tracking	Student Login Dashboard

Cluster 2 - Course & Enrollment

Course Management	Skill Availability	Fee Management
Scholarship Check	Enrollment Confirmation	Program Comparison

Cluster 3 - AI Intelligence

AI Priority Score	Eligibility Prediction	Risk Analysis
Smart Recommendations	AI Summaries	Admission Decision Support

Cluster 4 - Automation

Approval Workflow	Email Alerts	Reminder Notifications
Task Automation	Interview Scheduling	Status Updates

Cluster 5 - Analytics & Security

Reports & Dashboards	Performance Monitoring	Student Analytics
Role-Based Security	Feedback & Collection	Continuous Improvements

Outcome of Brainstorming

- Generated 45+ ideas from the team.
- Grouped into 5 major themes.
- These clusters will help us prioritize and plan features for the AI-Enabled Student Admission & Support Management System.

- Next step: Evaluate and prioritize top ideas.
- Align selected ideas with business goals and feasibility.
- Move forward to define requirements.

Step-3: Idea Prioritization

4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance
Rank all these tasks based on their impact, which would have the most positive impact?

Feasibility
Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

DO FIRST
High Impact
Easy to Implement

DO NEXT
High Impact
More Effort

DO LATER
Lower Impact
Easy to Implement

PARK / MAYBE
Lower Impact
Hard to Implement
