Project Name	AI ENABLED STUDENT ADMISSION SYSTEM
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am 	<i>Identify a person with a focus on a role, who – what or why?</i>	I am an Admission Counselor in an educational institute managing student admissions and support processes.
I'm trying to 	<i>List their challenge (goal) – what are they trying or hoping to achieve?</i>	I'm trying to efficiently manage student inquiries, evaluate applications, recommend courses/discounts, and complete admissions accurately and on time.
but 	<i>Describe what problems or barriers stand in the way – what's stopping them?</i>	But student data is scattered across spreadsheets and emails, manual evaluations take time, approvals are delayed, and it's hard to identify high-priority or at-risk students.
because 	<i>Either the "root cause" or why the problem or barrier exist or matter?</i>	Because we don't have a centralized system with AI that analyzes data and automates recommendations, approvals, and communications.
which makes me feel 	<i>Describe the emotions (positive or negative) that result from facing this challenge?</i>	Which makes me feel stressed, overwhelmed, and worried about missing good opportunities and providing the best experience to students.

Example:

 I am <i>Describe customer with 3–4 key characteristics – who are they?</i>	 I'm trying to <i>List their outcome or "job" the care about – what are they trying to achieve?</i>	 but <i>Describe what problems or barriers stand in the way – what bothers them most?</i>	 because <i>Enter the "root cause" of why the problem or barrier exists – what need to be solved?</i>	 which makes me feel <i>Describe the emotions from their point of view – how does it impact them emotionally?</i>
I am an Admission Counselor in an educational institute.	I'm trying to efficiently manage student inquiries, evaluate applications, recommend courses/discounts, and complete admissions accurately and on time.	Student data is scattered across spreadsheets and emails, manual evaluations take time, approvals are delayed, and it's hard to identify high-priority or at-risk students.	We don't have a centralized system with AI that analyzes data and automates recommendations, approvals, and communications.	Stressed, overwhelmed, and worried about missing good opportunities and providing the best experience to students.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1 Managing student inquiries and admissions	an Admission Counselor 	efficiently manage student inquiries, evaluate applications, recommend courses/discounts, and complete admissions accurately and on time.	student data is scattered across spreadsheets and emails, manual evaluations take time, and approvals are delayed.	we don't have a centralized system with AI that analyzes data and automates recommendations, approvals, and communications.	 stressed, overwhelmed, and worried about missing good opportunities and providing the best experience to students.
PS-2 Tracking student enrollments and approvals	an Academic Manager 	track enrollment status, review and approve applications, and monitor admission progress in real time.	there is no real-time visibility of enrollment stages and approval status. Reports are incomplete and not updated automatically.	the existing process is manual and lacks automated reporting and dashboard insights.	 frustrated and insecure about delays and data inconsistency.
